

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

Forty-two other colleges, represented by a single member each, . .				42
Total membership, July 25, 1894,				2026

It will be observed that the total in the leading group of four is 1262; in the second group, which comprises the 19 colleges represented by from ten to one hundred men, it is 608; and in the third group, which comprises the 19 colleges having less than ten men but more than two, it is 86.

Of the year's increase in members (83 since the last annual was printed, with 1943 names), the first group has 63, the second group has 8, and the other three groups (75 colleges) have the remaining 12.

There are 51 graduates of 18 foreign universities. Of the 15 Cambridge men, eight belong to Trinity College, three to Trinity Hall, two to St. John's College, one to Emanuel College, and one to Jesus College. (This last name should be inserted at page 61, fifteenth line.) Of the six Oxford men, three are assigned to Christchurch, and one each to Merton, Oriel and Brasenose.
